Sadly over 4,300 children and babies die suddenly and unexpectedly from sudden infant death syndrome, still birth, fatal sleeping accidents and accidental deaths. Over 50% of these deaths still have no known cause. SIDS & Kids works to change all that through the provision of education, bereavement support services, like Cherished Memories, and funding vital to research into still birth, sudden infant death syndrome and safe sleeping practices. Sids & Kids relies almost totally on the support of the community.
